See breakthrough technology with  
Ultra-Narrow Video Cubes.  
On display for the first time in  
Arizona at AVR

**NEC**

**MultiSync® X461UN**

**46" ultra-narrow,  
professional-grade  
LCD display ideal for video wall applications**

Revolutionize your video walls. The ultra-narrow bezel of the 46" NEC MultiSync X461UN allows for a screen-to-screen distance between two neighboring displays of a mere 7.3mm, a near 450% improvement over NEC's previous generation large-screen displays. Ideal for digital signage and broadcast applications, the display can be deployed in video wall matrices of up to 10x10 (100 displays), creating a total surface area of approximately 645 sq ft. The barely discernable transition gap between displays ensures a homogenous picture across the matrix.
